Education

Birla Institute of Technology, Mesra

Bachelor of Technology (Electrical and Electronics Engineering) CGPA - 8.42

October 2023 – Present

Ranchi, Jharkhand

Vidya Niketan High School

12th – 80.8%

May 2020 – 2022

Patna, Bihar

Skills

Programming Languages: C, C++, JavaScript.

Web Development: MongoDB, MySQL, Next.js, TypeScript.

Technical: Production and Operation Management, Logistics and Supply chain Management, Lean Manufacturing strategies, Project Engineering.

Tools: Git, GitHub, VS Code, MATLAB, Simulink, Sanity, Power BI, Pandas.

Interpersonal: Problem solving, Analytical skills, Leadership, Teamwork, Event Management, Teamwork, Effective Communication.

Projects

Blinkit Sales Dashboard | Power BI, Excel, DAX

GitHub

- Developed an interactive sales analytics dashboard visualizing Blinkit's key metrics including total sales(\$1.2M), item distribution(8.5K+), and outlet performance across locations and categories.
- Pioneered interactive dashboard filters for Outlet Type, Size, and Location boosting data-driven insights and cutting down analyst data exploration time by 20% alongside comparative analyses.
- Analyzed outlet establishment trends (2012–2022) to identify top-performing tiers contributing to 71% of total sales, while optimizing data models and DAX calculations for real-time updates and smooth visualizations, improving analytical efficiency and decision-making by 40%.

Green-Cart | Next.js, TypeScript, TailwindCSS, NextAuth, Sanity

GitHub

- Developed a sustainable shopping assistant platform providing **real-time carbon footprint insights** and **eco-friendly product alternatives** to promote eco-conscious purchasing.
- Integrated sustainability dataset to deliver accurate environmental impact data for each product in real time.
- Optimized **data handling** and **page performance**, resulting in a **40% increase** in user decision-making speed and engagement. Also designed an intuitive and responsive **Eco-Meter dashboard** with interactive visualizations, increasing user awareness of product sustainability scores by **55%**.

Stocks Comparison & Prediction Model | Power BI, DAX, Excel, Pandas

GitHub

- Developed a **Power BI stock analytics and forecasting dashboard** to compare performance across five major companies.
- Implemented **SMA crossover trends, volume-return correlations, and built-in forecasting** to analyze and predict closing prices with confidence intervals.
- Designed an **interactive dashboard** with buy/sell markers, YTD return tracking, and interactive visuals — enhancing investment insight and comparison accuracy by 45%.

Achievements

- 1st Rank** in Summer Project Program among **50+ students** conducted by EEESoc Student Branch-BIT Mesra.
- Finalist** in **Code for Bharat** Hackathon among 1000+ teams conducted by Tech Masters India.
- Runner-up** in the Bot Soccer event organized by BIT Mesra.
- Global Rank of **437** in Leetcode Biweekly contest 166 among **37,000+** contestants.
- Solved 600+ questions across all coding platforms.

Positions of Responsibility

Placement Coordinator-BIT Mesra

April 2025 – Present

- Successfully contributed to **placement drives** for 10+ companies, resulting in improved overall placement statistics.
- Organized multiple **career guidance** and **mentorship sessions**, enhancing students' career awareness and focus.

Tech Head-BIT Mesra

March 2024 – Present

- Organized various **software and electronics domain** events, enhancing students' technical and practical skills.
