Computer Fundamentals: Data Structures and Algorithms, Operating Systems, Object-Oriented Programming, Database Management Systems, MYSQL.

Tools: Git, GitHub VS Code, Firebase, Sanity, Power BI

Interpersonal: Analytical Skills, Leadership, Teamwork, Event Management, Effective communication.

Projects

Clinex | Next.js, TypeScript, MongoDB, TailwindCSS

GitHub

- Engineered a responsive health assistant platform providing personalized **health tips**, **real-time health status tracking**, and a **Virtual Assistant** for queries.
- Integrated dataset to power the virtual assistant, enabling instant responses to health-related questions.
- Designed an intuitive and responsive **user dashboard** to visualize health metrics through interactive charts, improving health status awareness by **35%**. Also optimized state management and modular website components leading to 45% boost in user interaction.

Green-Cart | Next.js, TypeScript.js, TailwindCSS

GitHub

- Developed a sustainable shopping assistant platform providing **real-time carbon footprint insights** and **eco-friendly product alternatives** to promote eco-conscious purchasing.
- Integrated sustainability dataset to deliver accurate environmental impact data for each product in real time.
- Optimized **data handling** and **page performance**, resulting in a **40% increase** in user decision-making speed and engagement. Also designed an intuitive and responsive **Eco-Meter dashboard** with interactive visualizations, increasing user awareness of product sustainability scores by **55%**.

StartHub | Next.js, NextAuth, Sanity, TailwindCSS

GitHub

- Developed a responsive and modern startup directory inspired by **Y Combinator**, showcasing curated startup listings with real-time data fetching using Sanity.
- Implemented advanced search, filter, and sorting functionalities that enhanced user engagement and startup discoverability by **30%**.
- Designed a modern, accessible UI with ShadCN/UI and TailwindCSS, boosting overall mobile usability and user satisfaction by **45%**.

Achievements

- 1st Rank** in Summer Project Program among **50+ students** conducted by EESoc Student Branch-BIT Mesra.
- Finalist in Code for Bharat** Hackathon among 1000+ teams conducted by Tech Masters India.
- Global Rank of **2480** in Leetcode Biweekly contest 161 among **37,000+** contestants.
- Solved 600+ questions across LeetCode, Codeforces, GeeksforGeeks, Codechef.
- Rated 3-star in Codechef.
- Pupil** at Codeforces, Max Rated - **1342**.

Positions of Responsibility

Placement Coordinator-BIT Mesra

April 2025 – Present

- Successfully contributed to **placement drives** for 10+ companies, resulting in improved overall placement statistics.
- Organized multiple **career guidance** and **mentorship sessions**, enhancing students' career awareness and focus.

Tech Head-BIT Mesra

March 2024 – Present

- Organized various **software and electronics domain** events, enhancing students' technical and practical skills.
